## EXHAUST GAS PROBE ADAPTER FOR MOTORCYCLES

AVL DiTEST – Experience universality with the most up-to-date instruments and accessories!

### AVL PROBIKE 420

Order number: VM-420-PROBIKE-TYP-DE-01

- Patented AVL DiTEST exhaust gas probe adapter for exhaust and diagnostic measurements on 2 and 4 stroke motorcycles, trikes and quads on which the exhaust probe cannot be lead in more than 30 cm into the tailpipe.
- Unique, universal exhaust gas probe adapter function by means of multi-functional cone – covers more than 85% of cases
- Exhaust gas sampling guaranteed free of dilution and back-pressure
- Comfortable handle for fixing to stand or for one-man operation
- Materials compatible with concentrated exhaust gas and associated temperature
- EURO 3 optimized (necessary for production motorcycles with Lambda = 1 control)
- Application also possible using third party exhaust probes
- For use with AVL ProBike 420 holder

FUTURE SOLUTIONS FOR TODAY

# AVL PROBIKE 220

## THE FILTER SYSTEM FOR 2-STROKE ENGINES

A new chapter in motorcycle emission analysis – for yet more reliability.

### AVL PROBIKE 220

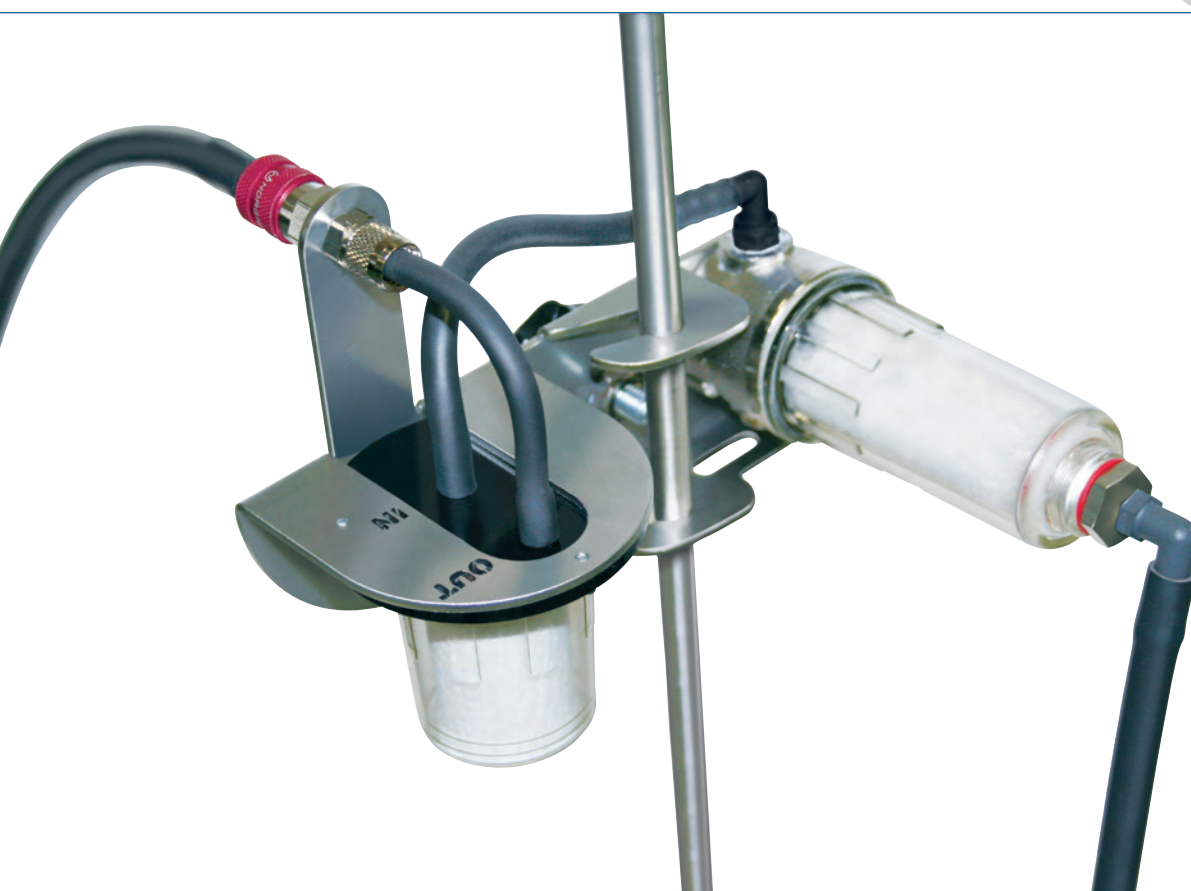

Order number: VM-220-2TAKT-TYP-DE-01

- 2-stroke filter system for reliable separation of oil and fuel combustion residues
- Including quickly-detachable couplings for simple integration in existing exhaust probes (also for third party systems)
- Maintenance and cleaning very simple and inexpensive
- Plug and play assembly on AVL ProBike 420 holder

### ACCESSORIES:

Stativ AVL ProBike 420 holder to take all ProBike system components

Order number: VM-420-STAND-TYP-DE-01
